MORNING MEETING ACTION ITEMS

TO: Legislative Counsel

Maury advised that Russ Blandford has indicated that the Rivers Subcommittee will want to hear the Director sometime next week. The Director asked Maury if possible to avoid an appearance next Wednesday, since he has a prior commitment to address the Air War College.

DD/S&T reported that the Soviet circumlunar shot has rounded the moon and that the shot's most formidable obstacle to success, the problem of re-entry, is to be encountered next Saturday. The Director asked Maury to brief Congressman Rivers on the Soviet moon shot.

*Both done*
